The Law Regarding Newspapers and Periodicals.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

2. If subscribers order the discontinuance of their paper, the publisher may continue to send them until all arrearages are paid, and subscribers are responsible for all the numbers sent.

3. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled the bill, and ordered their papers discontinued.

4. The courts have decided that a refusal to take a newspaper or periodical from the Post Office without notifying the publisher, and the payment of all arrearages, is prima facie evidence of fraud.

5. Subscribers to newspapers are considered removing, and liable to pay as long as the paper or periodical may be sent to the residence of the party at the time of subscription, unless notice of such removal to the publication office.

The Ocean Mail Steamers via Panama, leave New York on the 5th and 20th of each month.

The Mail Steamers leave New York on the 5th, 15th and 25th of each month, and Charleston on the 5th and 19th.

The New York steamers of the 5th and 15th are the regular contract with government, to and from Aspinwall only, for Havana, and are frequently made by pleasure, to avoid yellow fever quarantines, &c.

The mail contract with the Charleston steamers is for one year only.

The mails in California close for the Boston post-office at 1 P. M. on the 4th and 20th of every month, to go forward by the steamer leaving New York on the 5th and 20th.

The Ocean Mail for California leaves St. Louis every Monday and Thursday. Letters designed for it should be directed overland, via St. Louis, and the receipts of letters at the Bangor Post Office, by these steamers, may be expected the second day after their arrival at New York.

Eclectic Magazine for 1859.

GREAT ARTISTIC ATTRACTION.

28 Beautiful Portraits in January Number!

To all Lovers of Choice Reading.

Your attention is respectfully invited to the character, contents, portrait embellishments, and sterling literary value of THE ECLECTIC MAGAZINE.

For fourteen years THE ECLECTIC has found favor with the public and high commendation from the press. It is now in its fifteenth volume.

1. Its design is to present to its readers the choicest treasures of thought, and the richest productions of European writers, as they appear in the Reviews and Periodicals of Great Britain.

2. Its combined excellencies and permanent value give it a just claim to a place in every well-selected public and private library.

3. Each number contains the cream from seven Foreign Quarterlies!

4. It contains the cream from nine Foreign Monthlies!

5. It contains articles from the ablest pens of England, France, and Germany!

6. Forty fine Steel Portraits embellish it in 1858.

7. The forty Portraits are worth the price of the work at 25 cents each!

8. The subscriber gets double the worth of his money. Considering what it contains THE ECLECTIC is the cheapest, the safest, the best, the most desirable of all the monthlies. Try it. You will find it true. It saves time. It saves money.

11. No intelligent, family—no young lady—no young gentleman, will wish to be without its rich treasures of knowledge, when once examined.

12. Its instructive educational influences on the mind are worth untold times its cost.

13. The public press, far and near, give THE ECLECTIC strong commendations. Its merit men do the same.

The merits of THE ECLECTIC need only to be known in order to be appreciated. THE ECLECTIC is worth many times its cost."—*New York Observer.*

We have received many pages of commendation. We add the CONTENTS OF JANUARY NO., selected from six Quarterlies and seven Monthlies,

EATON'S ARITHMETIC.

BANGOR, Oct. 3d, 1858.

At a meeting of the School Committee, held this evening, it was

ORDERED—That EATON'S ARITHMETIC be introduced into our Intermediate, Grammar and Select Schools, instead of Greenleaf's, Low in use. Attest

(Signed) FRED'K E. SHAW, Sec'y.

The decided satisfaction with which this book gives in the school-room, and its unprecedented success, prove that it is a work of rare merit.

All those who are dissatisfied, with the books now in use, are requested to give this an examination.

They will find it the most clear, concise, logical and practical treatise on written Arithmetic extant; following as it does the plan of nature's first Lessons—the two make a complete and popular series.

Copies furnished for examination on receipt of postage—16 cents—on application to the

The Honey Blade Grass.

THE results which have been attained, by experiments in the cultivation of this newly imported species of product, have awakened an interest among the farming classes, in many sections, never before equalled in the entire history of our agricultural industry. Facts, in regard to the valuable properties, which at first seemed almost incredible, have now been established, beyond the possibility of a doubt, and it is believed, by those best capable of judging of its merits, that its general introduction will, add half one of dollars to our agricultural wealth. I have not the space here to enter into details, but will present briefly some of its advantages.

First—It will produce double the weight to the acre, in any soil, of any other kind of grass.—From four to six tons per acre is not an unusual yield, and I am in possession of worm-eaten ments by disinterested and reliable persons, of a yield of over eight tons of sound dry hay from a single acre, in soil where it was not possible to get more than one half the amount from any of the common grasses.

Second—The stock will be possessed more nutriment, and, consequently will sell for a larger price in the market, thus insuring the farmer more than double the return from his grounds that he could obtain from any other forage plant. The hay possesses one third more nutriment than timothy, and has sold for $25 per ton, where the price of timothy was but $12.

Third—Both hay and seed can be produced from the same crop, the hay being equally valuable as other hay after the seed is taken from it, while the seed is as valuable as the best of other grain, as a feed for horses, cattle, pigs, chickens, &c., and it is proved to be superior to linseed for the manufacture of oil, and must always find a ready sale, at a high price, for this purpose.

Fourth—It matures in about two months time, and can be sown on ground where other crops have failed, either by drouth or other causes, and at the same time, will yield a large return.

Fifth—In northern climates, where clover and other grasses are killed out by severe winters, this will yield a large crop, and in those sections of the south where other grasses will not thrive at all, it will grow very profuse.

Sixth—It will stand all kinds of weather, and whether the season be wet or dry, thunder or may always rely upon this *Honey Blade* as a sure crop.

These and other advantages are proved by facts which are endorsed by some of the first agriculturalists of the Union, and cannot fail to carry conviction to every intelligent reader.

Having been engaged during the past year in the purchase and importation of the pure *Honey Blade Seed*, I have determined to offer it for sale on such terms as will make it an object for every farmer and planter to interest himself, during the coming season, in its cultivation. It is put up in uniform bags, of about a bushel pounds each, the amount being sufficient to seed one acre, and the price is 50 per bag, delivered in New York or St. Louis.

Single bags, or lots, can be sent to any part of the country as first class or express, and will be put up, delivered for transportation, and the proper arrangements made, free of charge.

Each bag is stamped with the Hungarian coat of arms, and the following lettering: "*Honey Blade Hungarian Grass, 50 cts.*"

The Seed will be sold by agents in various sections, but parties should be careful of whom they purchase, and secure the pure genuine seed. They are especially cautioned not to purchase the common Hungarian Grass seed, as it is very far inferior to the HONEY BLADE.

An interesting pamphlet containing all of the facts, and full particulars, will be furnished, free of charge, by mail or any agents, upon application. I will state, as an indication of the interest which this object is exciting, that over a quarter of a million of copies of this pamphlet have already been applied for. Parties desiring to act as agents should order at once, as the introductory sale and full development obtained will be extensive long before the season of sowing has passed. Those who decure seed early can realize a rich return, by producing seed to supply the demand of farmers and planters for sowing another year.

Orders should be sent direct to me, unless in the vicinity of New York, where they will be filled by J. McEMASON & Co., 498 Broadway, New York, General Agents.

Agricultural Houses, Grocers, Merchants, and any other parties properly situated, are invited to become agents for the sale of the *Honey Blade* Seed. Authority, full particulars, and from 50 to 100 pamphlets for distribution, will be furnished either by me or the New York Agency, on receipt of 25 cents, to prepay the package.

I am authorized to name the following well-known gentlemen as references, Hon. J. R. Barrett, President of the St. Louis Agricultural and Mechanical Association; Vice President of the National Agricultural Society, and Member of Congress elect from St. Louis; John T. Tillman, Oxford, Md., President of the National Agricultural Society; John J. Anderson, Banker, St. Louis; John Riggin, Jr., Banker, St. Louis; and ex-Mayor Washington King, St. Louis.

U. S. PATENT OFFICE, Feb. 20, 1855.

I take great pleasure in stating that during the time I have been at the head of the Patent Office, Samuel Cooper, Esq., of Boston, has been employed as solicitor, and has been in that capacity in constant correspondence and intercourse with the Office. He has conducted a large number of cases with the Patent Law, and with the rules and practice of the Office, in close attention to the interests of his clients; and I have much pleasure in stating that the gentleman of the very best standing at the bar, and that I should have no hesitation in advising those having business before the Office with whom I am acquainted, to place it in his hands.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge of the business and practice of the office, and of distinguished attainments as a counsellor, eminently fitted for the responsible duties in which he is about to engage.

MAGNET CORDIAL BALSAM.

The GREAT STRENGTHENER and PAIN DESTROYER.

THE best and cheapest Household Remedy in the World. Simple and pleasant in its application, certain and effectual in its results. A beautiful, scientific, external curative applicable for the relief of Pain at any time, in any place, in any part of the human system, and under all circumstances. If you put this Plaster on any muscle, it will not cramp it, and there are endless calls for it, both by Nurses and Invalids, as it rarely fails to relieve. One night, while sleeping on a open Zephyr I was awoke by a loud scream, the part in my foot. On examination I found had been bitten by a Centipede. I immediately put on the Pain Killer, and found it gave relief. In an hour I was again asleep.

Mr. Thomas Van Meter, of Barcelona, Indiana, writes:—Here let me assure you that we prize your Pain Killer very highly. For the last two or three years of our residence in Iowa we were ignorant of its valuable properties, and did not use it, but now would hardly be safe without it for a single day. Only a few months since Mrs. Van Meter was stung by a scorpion, and intense pain was instantaneously thrown out the arm, and soon a numb sense of the fingers followed. By the continued application of the Pain Killer, for an hour or more, and at intervals during the night, the alarming symptoms were subdued, and in the morning only a slight soreness was felt in the finger. I have put it to several cases of Fever and Ague, according to directions, and it acted like a charm, breaking it up at once. The Magnet have great confidence in it.

Rev. W. L. Carpenter, writes from Calcutta, Jerry Davis' Vegetable Pain Killer is a very valuable medicine, and most people in India, that have used it entertain a high opinion of its worth."

Messrs. P. Davis & Son—Gents: The $183 bills which you drew on me, and which I sent you by the last shipment of Pain Killer, were all paid at sight. It is close that you can sell it in this country. Herewith find a draft for $250, on the Mechanics Bank of India, London and China, in your order. Kindly favor me with your account sales and remittances by the mail. Three to six months are considered among our different buyers, two of whom would each have taken the whole of the last if we could allow it. Please to send me by the next vessel you can name one dozen each of your Pain Killer and Hundred Thousand Wonderful Healers.

PERRY DAVIS'

Vegetable Pain Killer

REV. T. ALLEN, writing from Tavoy, Burmah, says: Within the past four years I have used and disposed of above five hundred bottles, but am now out. Please send me a fresh supply (through the mission Rooms) as soon as you can, say two hundred bottles. I dare not be without it myself, and there are endless calls for it, both by Karens and Burmans. Always take it with me into the jungles, and have frequent occasion to use it both on myself and others. One night, while sleeping on a open Zayat I was awoke by a loud scream, the part in my foot. KING BOMBA AND HIS VICTIMS.—There was a report a short time since that the King of Naples was dead, but the man was too good to be true. The monster still lives to curse his subjects and coin curses upon himself. The general voice of the world

America, numbers 3,441,854 free men, without the luxury of a slave. In the year of the union, the imports of the United States were valued at £4,950,765. In the year 1858 the imports into the British Provinces amounted in value to £15,138,524. In 1858 the exports of those Provinces amount to £11,701,144; so that at this day these British Provinces, this future "North American Federation," rank third in the list of the trade and commerce of the world, taking precedence of France and Russia. These are some of the circumstances on which the advocates of union between the British Provinces rely, as an evidence that the colonies are now of such maturity as would justify the creation of a national existence, by a North American Federation and a free common wealth, in which it is believed that a federal union must merge.—*London Post.*

BANK COMMISSIONER'S REPORT.—We have received the second Annual Report of Messrs. Robert Goodenow and W. S. Cockran, Bank Commissioners; and we gather from the statements and returns thereto embraced that our banking institutions are generally in a sound and safe condition. We copy from the remarks of the Commissioners, as follows:

The number of Banks, now in successful operation in this State is sixty-seven. They have a working capital in the aggregate, of seven millions three hundred and eight thousand nine hundred and forty-five dollars. Having, in specie, six hundred and thirty-nine thousand four hundred and ninety-four dollars in their vaults, they are entitled, by law to circulate to five million seven hundred and sixty-two thousand nine hundred and fifty-nine dollars. Their actual circulation, however, at the time of our examinations was only three million eight hundred and seven thousand and ninety-two dollars.

This simple statement affords a strong, if not a conclusive argument, that the legitimate and healthy business of the State does not require an increase of banking capital.

From other investigations, we may state with confidence, that, so far as the currency of the State is dependent upon the banking institutions, the currency of Maine may safely challenge a comparison with that of any other State in the Union.

We can but believe that the banks are generally well conducted by the public and the stockholders, carrying out the objects for which they were created. In the most essential particulars they conform to the law of their organization. The fact that in most of them the stock is at or above its par value, speaks of the intelligent and probity with which the larger number have been conducted. In the manner and liberality present an inducement to attract their business, with the hope of gratifying their stockholders with large dividends, we see no reason why stock in our solvent banks should not continue to be a desirable investment. The safety of the investment should ever be a subject of paramount importance. Many, of small means, widows and orphans, have their all in a bank stock, and this is a matter of the utmost moment that the investment should not be exposed to any risk.

It may be safely affirmed that under our banking law, no bank can *honestly* fail to meet all its just liabilities to the public; or even incur the loss of any considerable proportion of its capital stock.

That there should be some limit prescribed, by law, to the amount of bills which a bank may keep on hand, signed and ready for circulation, and also as to the amount of unsigned bills that may be allowed to exist from the engraver and especially in other hands, seems to the Commissioners indispensable to the safety of the banks as well as to that degree of protection the public have a right to claim from enlightened legislation. From observations of the monthly returns for November, last, while it appears that the amount of bills in circulation was three million seven hundred sixty-nine thousand, five hundred seventy-seven dollars, the amount of bills signed and held ready for circulation was [illegible]

THROWING OVER DEMOCRATIC STATE.—The Washington "Statesman" thus expresses the sentiments of the Southern and Free Trade Democracy towards the party in Pennsylvania. With the most audacious recklessness the leaders now throw overboard the ticket which alone saved them from defeat in the last Presidential election.

"Our associations in the Keystone State have already been indulged to the utmost limit of forbearance. They have been tolerated for retaining the open profession of heresy. We permitted them to sacrifice Dallas for his intrepid fidelity to the principles of the party, and we allowed them to prostrate Buchanan because of his non-conformity to a cardinal point of Democratic doctrine. These things have been done for the purpose of uniting Democracy of Pennsylvania, and yet they have the audacity to exact a still further compromise of principle. The demand is insufferable. The State-rights Democracy might as well signify at once our determination to surrender nothing more to the spiritual influences of our allies in Pennsylvania. If their services is to be bought by a betrayal of principle, we prefer help antagonism to their association.

"Between a Black Republican President and a Democratic administration with a federal policy, we have very little choice. Pennsylvania is of vital importance to the producing interests of the South and the West. Protection is another form of Abolitionism; and rather than be responsible to its imposition, the representatives of the slave-holding States would surrender the control of the government.—But we do not admit that the vote of Pennsylvania is indispensable to the success of the Democratic party. The loss incurred in their defection would be more than supplied by the support which a free trade policy may propitiate in other quarters."

UNEMPLOYED STEAMSHIPS AT NEW YORK.—The Herald states that there is now lying idle at the port of New York, no less than eighteen ocean steamships, some of which have been unemployed for years, and not one has been used during the winter. They are the Ariel, Arctic, Africa, Atlantic, Baltic, Canada, Dublin, Europa, Edinburgh, Falcon, Georgia, North Star, Northern Light, Ohio, Ocean Queen, Victoria, Vanderbilt, Columbus, and Star of the West. And of all these there is prospect of employment, or talk of employment, immediately, for but five—the American, Canada, Northern Light, Star of the West, and Ocean Queen. Four, on the list, belong the Arctic, Baltic and Atlantic, of the once famous Collins line, three of which are of American shipping. These ship can steamers are said to be worth $7,500,000.

WEBB'S JENKINS.—A correspondent of the New York Times, describing the Napier ball at Washington, gives a pen and ink sketch of some of the guests who were present. We select one of its portraits as a striking specimen of *artistic coloring*, now so extensively used at the Capital by artists of the Jenkins school. The correspondent says:

"Here, again, comes one of the brightest and most beautiful types of girlhood. Miss Bayard daughter of the Senator from Delaware—bright, graceful, *spirituelle* facie, fantastic, when she utters her wit or fancies she is daring as Cerito—while she dwells in those spheres of graceful as Emeralda. She is a flower of that delicate, gossamer type of beauty so peculiar to America. The golden hair thrown back like a sheaf of broken sunlight, the fine forehead, smooth and soft as a pearl from which the waves have just retired; the little early-rising sweet in shell-like shell, and the slight, tired head poised upon the throat like a Grecian urn upon its pedestal. In every more ment there is the air of the racer! The immediate effect of such beauty is different on different minds; to some it quickens present pleasure; others it palls; soldiers it destroys reverence of recollected grace. For a part, read I write the light, ethereal form that is before me like some receding angel in the soft mazing twilight."

A letter from Washington relates that a Mrs. F——, of New York, the wife of a leading oil manufacturer, went to the Napier ball in diamonds valued at $100,000, and lace worth $11,000. Her jewelry in the head-dress were wholly composed of splendid, and her breast plate was of diamond leaves. She stood "like a queen" (Jenkins's merchant expression) in full dress, and had her share of exceeding delicacy, the secret of the manufacture of which has long been lost. Its fall over blue silk from her fair neck to her feet, and also in graceful folds over her bosom. The only act during the whole of the evening by which new opening from a side room into the ballroom, Mrs. ——'s position where the light could fall favorably upon her loveliness. But she did not dare to enter the crowd, for fear that the lace might be injured, or the diamonds rewhich from her person.

LOLA MONTEZ ON THE AMERICANS.—Lola is lecturing in England, her chief theme being America and the Americans. In a lecture at Liverpool, she said:

"Volatile and enthusiastic in their feelings, the Americans were easily thrown into a state of universal feverish excitement during which they literally worship their chief idols and as easily relapsed into a state of calm, in which their indifference was so profound, that their very existence seemed to have been forgotten." In illustration, she referred to the reception given in America to Kossuth, who was afterwards plunged in such obscurity of all those no man ever reated under before.

THE YOUNG LADIES OF AUSTRALIA.—The Young ladies of Australia are in many respect's remarkable. They excel in dress. A young lady wishing to make a display generally, and especially to the public and the stock holders, carrying out the objects for which they were created. In the most essential particulars they conform to the law of their organization. The fact that in most of them the stock is at or above its par value, speaks of the intelligent and probity with which the larger number have been conducted. In the manner and liberality present an inducement to attract their business, with the hope of gratifying their stockholders with large dividends, we see no reason why stock in our solvent banks should not continue to be a desirable investment. The safety of the investment should ever be a subject of paramount importance. Many, of small means, widows and orphans, have their all in a bank stock, and this is a matter of the utmost moment that the investment should not be exposed to any risk.

It may be safely affirmed that under our banking law, no bank can *honestly* fail to meet all its just liabilities to the public; or even incur the loss of any considerable proportion of its capital stock.

That there should be some limit prescribed, by law, to the amount of bills which a bank may keep on hand, signed and ready for circulation, and also as to the amount of unsigned bills that may be allowed to exist from the engraver and especially in other hands, seems to the Commissioners indispensable to the safety of the banks as well as to that degree of protection the public have a right to claim from enlightened legislation. LOCAL AND MAINE NEWS.

JOB WORK.—We are prepared to execute job printing of all kinds, in the latest style and at *as cheap rates* as at any office in the State. Our friends who are in want of Cards, Bill Heads, Shop Bills, Blanks, Circulars or any thing of the kind, will wehope bear us in mind.

The 21st Apprentices' School examination will take place Friday afternoon, at their school room in Bethel building, Broad Street.

EXAMINATION.—It will be remembered that the Oldtown Dirigo Club will give an interesting entertainment at Common Hall, Oldtown, this evening, after which a dance will come off. Refreshments will be furnished by Mr. Batchelder in his usual good style. This offers an opportunity for a pleasant ride and a pleasant evening's entertainment. We understand that the fare on the cars will be reduced to half price for the occasion.

SERMON.—We are indebted to Mr. George A. Thatcher for a copy of a sermon preached by Rev. Edward W. Gilman before the First Congregational Church of Bangor, January 16, 1859, on the Sabbath following; this installation as Pastor. Text—1st Corinthians i. 1, 2. It is worthy of being extensively circulated.

PLEASANT REUNION.—The ladies of the Hampden Universalist bowing Circle, 20 in number, visited their former pastor, Rev. I. C. Knowlton, of Oldtown, last Friday, carrying with them a tribute of sumptuous dinner. The fact was spread by themselves, and Mr. Knowlton and his family shared in the luxuries. The house and every heart was full of gladness. Before leaving they graced the "best in the parlor bed-room" with a new and elegant patch work quilt on which was written with indelible ink, the names of the fair donors.

DIN RAILWAY.—The plan agreed on at Augusta, contemplates the extension of the European and North American Railway, from Oldtown to the boundary of New Brunswick, to connection with a line to St. John and Halifax, with a branch line to Houlton and Woodstock. Any aid from the State is based on the proceeds of the public lands. The road to be out in two sections,—the first to extend from Oldtown to the Mattawamkeag, to be built and equipped by the company. Toward the second section, aid from the State, from the proceeds of the land, is to be extended, to the amount of $5000 per mile, not to exceed $200,000. A further loan of $700,000 to be granted, on the security of the whole road, as the work progresses not to exceed $6,000 per mile, and the proceeds of the land office are to be set apart as a sinking fund or for redemption. The company to pay the interest and make good every deficiency, if the proceeds of the land office are not sufficient to meet this loan. The lands to be sold to actual settlers, at a minimum price to be fixed by law.

The only question that seems to be raised, is can the company build the road on these terms. If so, there is a general disposition to favor it.

It is understood that the city of Bangor will have to lift the chief part of the load. She could well afford to do it. This line will do as much for Bangor as the Montreal road has accomplished for Portland.—*Sons of Maine.*

William Welsh and Edward Fanning, who had previously pleaded *nolo contendere* to assault and battery upon the Millers, at the master ground last fall, were brought in for sentence. Mr Kimball proposed showing the good character of Welsh, in mitigation, and would call witness from the jail. He was aware that Mr. Fanning had not justified against his character. The Court remarked that the jail was rather an unfortunate locality to get testimony from to prove character. The Court awarded a further sentence of ten days on F, in consideration of their having been already in jail some five months.

Thursday, March 1.

State vs. W. K. & Edward Miller. Case of seized Liquors, appealed from the Police Court Quilty.

State vs. same. Indictment as common sellers. The Jury have not returned a verdict when the Court adjourned.

EXHIBITION LAST EVENING.—The Declamation of the pupils of the High School last evening at Norombega Hall, were highly creditable, both to teacher and pupils. The Hall was crowded and the exercises entirely satisfactory. The following was the order of exercises:

1. George H. Buker, Broadway. Extract from a Speech, Sumner.

2. Joseph W. Milliken, Newbury St. Invective against Warren Hastings. Sheridan.

3. Henry Jones, State St. Character of Pitt. Robertson.

4. John R. O'Loughlin, Essex St. Supposed Speech of Fabius. Rousseau.

5. George A. Bartlet, Harlow St. Speech on the Slave Trade. Giddings.

6. George H. White, Oak St. Irish Jacks and English Visitors. Shie.

7. Edward C. Ingersol, Pine St. Reply to Mr Flood. Grattan.

8. Pierre Le B. Coombs, State St. The Battle of Inkermann. Anonymous.

9. T. Herbert White, Broadway. The Battle of Beal and Dhuine. Sport.

10. Augustus W. Norcross, Grove St.—Speech at the grave of Jean Bosquet. Victor Hugo.

11. Pierre Le B. Coombs, State St. The Lost Heir. Hood.

The Bangor Cornet Band furnished some excellent music for the occasion.

Peter Cushing's house, in Frankfort, was damaged by fire on Sunday. Fire caught from the stove pipe. Insured at Penobscot Mutual.

Messrs. Wheeler & Lynde:

On Thursday evening of last week, while the pastor of the Methodist Church, Rev. I. D. Wardwell, and his family, were quietly taking tea at the house of one of their parishioners, about 150 persons of both sexes and of all denominations, in some mysterious manner got into the parsonage, and when the family returned, about half past seven, they had entire possession of the premises.

They were not of that character that "loves darkness rather than light," for the house was illuminated throughout. They manifested no disposition to *conceal* their acts, for, instead of trying to *escape* when the rightful occupants returned, they *greeted* them with "Old Hundred's" *heartiest strains*. Neither did they come for *plunder*, or aught was *taken* from the premises.

Indeed (and it is truth night, as well be told) the preacher's purse and pantry were over $60 richer when they left.

The meeting was a pleasant one to all concerned; but especially to those for whose benefit the meeting was planned.

For the generous donation, and for those expressions of sympathy which so refresh the hear, and that are now all prize, the preacher and his companion tender grateful acknowledgements, and ever pray, *God bless the good people of Canton.*

Canton, Feb. 21st.

The graduating class in the Hoyt Select School, State Street, presented Mr Boothby, their teacher, with a very beautiful copy of Hudson's Shakespeare, bound in half—calf—worth about $15.00—at the examination Monday. Mr B. has, during his short employment as a teacher in this city, performed his duties in a manner very pleasing and satisfactory, and he well deserves the good feeling of the boys, which has been so plainly manifested.

Hugh Monahan, of Whitneyville broke his collar bone, last Tuesday by being thrown from a sled.

FIRE AT MECHANIC FALLS.—On Saturday night a fire broke out in the blacksmith shop, at Mechanic Falls, owned and occupied by Mr. William Moore, which, with its contents, was entirely destroyed. The fire spread to the adjoining building, known as the "Railroad Store," owned by Samuel Waterman, Esq., and occupied on the lower floor as a store by Messrs. Jackson & Chinery, and in the chamber as a dwelling house by the family of Mr. Snell. The goods in the store were removed, but Mr. Snell lost all his furniture, and it was with great difficulty that his wife, who was lying ill at the time, could be removed. The loss of Mr. Waterman is estimated at $600; that of Mr. Moore at $700, and that of Mr. Snell at $300. The buildings burned were those formerly occupied by Hon. John M. Wood, when he was building the Atlantic and St. Lawrence Railroad.

The demand for lumber is on the increase, and prices for shipping are fast advancing. Our dealers have more orders than they can fill—The old stock of boards is nearly exhausted, giving to the wharves and piling places a different look from a year since, when four or five millions of lumber was on hand.

DEATHS OF AMERICANS IN CUBA.—Sometime in December last, two Americans were killed at Knight's Ferry, Cuba, by the caving in of a bank of earth where they were engaged in mining. One of them was Mr James Palmer of East Boston, a young man twenty-four years of age, who had been on the island but a few days, and entered upon his labors the day he was killed. The other man was Justin Palmer Britt of Greenville, Me. He lived two days after the accident.

FIRE IN BOWDOINHAM.—On Friday afternoon last the one and a half story dwelling house owned and occupied by Robert S. Hall, Jr. Bowdoinham, was totally destroyed by fire, together with the barn, out-buildings, nine head of cattle, fifteen tons of hay, all his farming tools and corn, most of the grain and provisions, and a portion of the furniture. Loss estimated at from $2500 to $3000. Insured for $1500.

DISASTERS.—The brig John A. Taylor, of St. George, Me., loaded with lumber, recently stranded in Georgetown Bar, has been got off and was towed up to Georgetown, S. C., February 20.

In Burlington on Tuesday, Martin Flanagan, a lad of 14 years, had his arm sawed up to the elbow by a planing cylinder with which he was accidentally meddled.

A SAD MISTAKE.—In New York they have a collection of Photographs, which they call "the rogue's gallery," embracing all the noted characters which require to be looked after by the Police. A gentleman from New York seeing a collection of faces at the door of Hanson's gallery, supposed it was got up for a similar purpose. But on inquiry, it turned out to be an exhibition of the jolly faces of the occupants of the Portland Custom House.—*State of Maine.*

BOWDOIN COLLEGE.—At the recent annual election of the Freshman class the following officers were chosen: S. W. Dawson, President; Orator, F. N. Haskell; Poet, C. H. Averill; Historian, T. H. Greene; Toast Master; H. L. Prince; Treasurer, J. Noble; Secretary. Committee on Odes: A. H. Linscott, W. M. Jenkins, T. W. S. Bradbury. Odes of Committee, M. Smith, W. R. Woodside, C. H. Shaw.

HIGH PRICES OF HUMAN FARM STOCK.—The Natchitoches Chronicle of the 5th ult. records the following sales in that parish. The property was that of the late Judge Overstreet, and the terms one to two years' credit:

Paul, Adelaide, Alexander, Ellenore, and an infant, $4,400; George, $1,070; Milton and Francis, $3,100; Tom, Boyland, Joe, $2,800; John, $2,200; Sam and Rochel, $1,675; Sylvester, $1,600; Harriet, Gaspard and Emma, $2,600; Sally and Mark, $100. Ann, $1,700; Pierre, Francis, Edward, Marcelle and Corinne, $4,070; Caroline, $1,250; Jack, $1,810; Wesley, $1,950; Fanny, $1,810; Carter, $1,425; Emily, $1,810; Corinne, $1650. Total, $39,640.

Of these thirty-three slaves, ten were under eight years of age.

LATER FROM LIBERIA.—By the arrival at Philadelphia we have letters from Liberia to the close of December. The country was enjoying peace and prosperity. A letter written on the 29th December says that the National Fair was then in progress in Monrovia, and was far more interesting this year than last, there being more articles exhibited, and of more utility.

WAGES ADVANCING.—The Manufacturing companies in Fall River and Newburyport will advance the wages of the cooperation from the first of March. In Newburyport the advance will be above eight per cent, and in Fall River about one third of the reduction during the late hard times. This looks like returning prosperity.—*Boston Journal.*

The deaths of three very aged women are recorded in the late New Jersey papers. Two of them were colored, and died at the age of 103 and 108 years respectively. The third was Mrs. Hannah Phillips, the widow of a revolutionary hero, who died in her 108th year, in the possession of all her faculties.

To the Citizens of Bangor.

CITY OF BANGOR, January, 1859.

MR. LEWIS WATERMAN, proposes to number the streets of our city upon a plan which will mainly obviate the necessity of renumbering afterwards, on account of the erection of new buildings, as each street is to be carefully measured, and the numbered to be arranged with reference to such probable new erections. He comes with recommendations from other cities and towns where he has heretofore performed similar services which are satisfactory to them. It is hoped that the citizens of Bangor will avail themselves of this opportunity for effecting the proposed improvement, the expense being small.

WASHINGTON.

SENATE.—The Senate had not been in session till 12 o'clock, and then to consider Post Office bill.

Mr. Yulee, from the committee on Post Roads, to this bill a clause similar to that in the House bill, relating to rates of postage on newspapers, and abolishing the franking privilege. Adopted 29 to 28.

Mr. Wilson moved that the Post Office bill, department advertising, should be printed in each State in the Territories, in the largest circulation. Agreed to.

Mr. Wilson further amended the bill with Butterfield & Co. for carrying the mails on any route they may be directed to by the Postmaster General, which was lost by a vote of 29 to 28.

Mr. Toombs, of Georgia, moved to amend the bill by striking out the clause which provides that the Postmaster General shall be authorized to contract with Butterfield & Co. for carrying the mails on any route they may be directed to by the Postmaster General, which was lost by a vote of 29 to 28.

WASHINGTON, March 1.

SENATE.—The Senate had an Executive Session until 2 o'clock, and then took up the Post Office bill.

Mr. Yulee, from the committee, appended to this bill a clause similar to that on the post roads bill, raising the rate of postage to five cents, and abolishing the franking privilege. Adopted 29 to 28.

Mr. Toombs moved that, in future, that the department of printing should be given to two papers in each State and Territory having the largest circulation. Agreed to.

Mr. Wilson further amended the contract with Butterfield & Co., for carrying the overland mail, so that the contractors may carry letters on any route they may select. Objected to by Messrs. Yulee, Toombs and Iverson, who are in the proposition an attempt to deprive the South of the privilege of a mail route, evidently as to influence the Pacific Railroad.

Others joined in the debate, in which it came out that ten letter sent by overland conveyance cost the government from $35 to $60.

HOUSE.—The miscellaneous appropriation bill was taken up for consideration.

Among the amendments concurred in are the following:—Adding the appropriation of $250,000 for continuing Treasury extension to $500,000. Striking out $100,000 for the Charleston Custom House and $250,000 for the New Orleans Custom House. The bill passed.

The House went into committee on the mail steamer appropriation bill.

An incidental discussion of no great importance ensued, in which it was contended that the Postmaster should be withheld, and the postage paid to pay for the service. That the postal treaties, which now afford protection to foreign steamers, should be abrogated, and the Postmaster General be directed to send the mails in American steamers only. That subsidies are corruptive.

The bill was ordered to the committee of the whole, and passed by 11 majority.

On the following appropriations for fulfilling the treaty stipulations with Yancton and Ponca Indians was passed.

The bill for the care and preservation of the Washington aqueduct, and for the distribution of water in the streets of Washington and Georgetown was passed.

The Senate amendments to the army bill were then taken up in committee of the whole, and after supporting $287,000, the balance of the Senate items on account of the war in Utah, was stricken out.

Mr. Shorter (Ala.) offered an amendment which was ruled out, providing that Massachusetts, at the expense of the enforcement of the fugitive slave law in that state.

WASHINGTON, March 1.

The offices for Mr Sickles have agreed to the following:

Mr Sickles having been committed on Sunday, further examination before a magistrate will be waived for the reasons that the criminal court commences on Monday and being in contempt he will be entitled without delay to an immediate and final trial. Mr Sickles will remain in prison on Monday when he intends to go before the grand jury. He feels bound to believe him entitled to a habeas corpus, and the application would bring up the whole case including the provocation. Mrs Sickles submits to a clergyman who visited her that her confession is correct in all particulars.

Mr Key's personal friends visited Monday. The Judge on the bar, last Monday, and passed resolutions expressing their sorrow and regret at the death of Mr Key, and their intention of attending his funeral in a body. To-day Mr Sickles is in a state of complete mental prostration, and refuses to see any but a few of his most intimate friends. Mrs Sickles is confined to her bed by severe illness, and refuses to see only one. Mr. Buchanan called at the jail to-day to see Mr. Sickles.

There are rumors that Mr. Butterworth was arrested this evening, as an accessory to the killing of Mr. Key.

Numerous offers of bail have been pouring in on Mr Sickles, but he prefers to remain in prison until the act shall be finally presented. Mr Butterworth's publication is the most important feature in the case. Mr Butterworth says he was connected with the dreadfully terrible occurrence. He says that when he left the house of Mr Sickles he had no thought of seeing Mr Key; his object being to see Mr. Stewart. He had no such intention, and did not know that Mr Sickles and the Key family were to be there. When Mr Key said Mr Butterworth, he did not know what Mr. Sickles was to be sought, nor did he see him until he turned to bring Mr. Key. It must true that he sought to detain Mr Key, who first addressed him, and that their interview did not last one minute.

Hon. Robert J. Walker suspends a statement in full to-morrow.

Mr Butterworth's narrative is considered material to supply and correct imperfections in Secretary's report, on the following in the House between Messrs. Reagan and Bryan. Mr Reagan asked Mr. Bryan whether he considered himself a responsible mouthpiece to publish such easy imputation upon the character of the witnesses; after which the president of the town responsibility.

The President in replying to the call of the House for information concerning the African slave trade says that the instructions given to the commanders of the squadron are such that he believes no vessels would at least insure success or hesitate in case of necessity and not rather favor a pursuit. The object has been to avoid so far as practicable all vexatious interruptions of lawful commerce.

The only vessels at present known to the government, which an officer capturing a slaver, or suspected slaver, on the coast of Africa, has been ordered, or otherwise embarrassed in the exercise of his duty against the suspected vessel, is that of Commander Simmons, who captured the brig Casket. In this case damages appear to have been recovered against him, and the expenses incurred by him in defending the suit, were refunded him under the act of Congress of 1854. The number of vessels taken by the squadron under the treaty of Washington, previous to September last, was twenty-six, which six were condemned.

NEW YORK, March 1.

Preparations are being made for the celebration of the fourth of March on a grand scale. Nearly all the tickets to Mr Everett's oration on Washington are already sold. The seventy-first regiment is ordered out for the occasion, and will act as an escort to Mr Everett. The Mayor and city authorities, and many distinguished citizens are invited to be present.

A despatch from Washington to the Evening Post says the Senate to-day, in executive session, ratified the Reciprocity Treaty with China.

Mr Cameron is to move for a committee of investigation into the blank printing frauds reported in the Senate, yesterday, by Mr Wilson.

NEW ORLEANS, Feb. 28.

A boat has arrived from the Province bringing a number of the wounded. It is impossible at present to ascertain the exact number lost. There are upwards of 100 wounded—many of whom are in a critical state, and others dying. Numerous unrecognized bodies are floating ashore all along the river. Among the recognized, there are no other northern or eastern persons. There is great excitement here. The Empress was bullish to-day, and the regiment crowded on steamers, as reported, that an assault upon New Orleans, a certain time o'clock, up to-day. He was cut in two.

A Mysterious Affair.

In Philadelphia on Sunday night the police took charge of a man [illegible] who was accompanied by his wife and [illegible] children. The woman said she had just sold a property for [illegible], Ind. for $1800 which was in the husband's pocket, and that they were on their way to New York, where he was going to engage in business. She said her husband was insane—that his mind was unsettled. The officers [illegible] her statement as to the money, stating that they did not count it, and on Monday morning the entire family left for Boston. With the express intention of going on to New York. On Tuesday afternoon the man was found in Delaware avenue, and in a sorry plight. His symptoms of insanity were now more apparent than ever. He was observed to slip a gray mark across, and act in a manner which convinced the man who saw him that he was a maniac. He was taken to the station house, when he refused, as before, to give his name. He said that his family had been murdered and were now in search. He had but $50 in his pocket, and carried with him a map of Ireland, which he said was his native country. His face and hands were badly scratched, and the whole appearance very distressing. He appears to be about thirty-five years of age. A blank pocket book found in his pocket for New York, and also a check for his baggage. What became of his family is not known, and at last accounts no clue to the mysterious affair had been obtained.

A Hint to Corporate Bodies.

The office of the Portland Argus, which is [illegible] at the South, wrote home to this effect:

"My recent professions—and this decade years ago in July—confirm me in the opinion that it is always best for sick people, especially those upon whom consumption has fixed its challenge, to stay at home. To seek relief in a milder climate, amongst strangers is the greatest possible mistake. Absence of home comforts, depression and mental agony which such an invalid has to undergo in the strange city from earth, (which on his journey and inevitable exposure almost hasten it) is indeed painful to contemplate. To Italy and other southern parts of the United States confirmed consumptives resort to from the effusion of cold at their own homes. A greater error cannot be made, and the many sad instances of this which I have chanced me to witness, both in our country and abroad, induce me to give this warning. I saw a full dozen Americans in Naples during the winter of 1850, and I saw several of New Orleans, while sojourning there, whose hopeless and fit for any exertion—both conditions making my heart ache. All friends, with family and friends, they might, have been comparatively comfortable even in the coldest parts of New England and Canada. Of course I do not intend that I have said to apply to the cases of those who simply have delicate constitutions, which vigorous and prolonged cold may invigorate for and many find no protective distance from their disease will find a milder climate beneficial.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, this is to caution California bound passengers to buy Tickets at the only authorized Agencies of the United States' Mail Line, as below.

By order of the Post-master General, the United States' Mail steamship will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are booked at the Railroad Depot, Aspinwall, and conveyed across the Pacific Steamers without any extra expense. This is the only line giving entire Through tickets, guaranteeing no detention on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great expense by night in open boats to Gorgona, and the risks of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a sure and short passage with the greatest comfort and safety to the same.

Tickets must be signed by one of the Companys Agents before they will be recognized by the Agents of Panama, and tickets thus signed can be obtained of the only authorized Agent for the U. S. and Pacific Mail Steamship Companies, in this city.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry—and you will seldom need a Physician.

It is not a truth that when the feet are moisten wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof then is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found a way to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it like water softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet tannery with my boots constantly in water, and have no had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to many guests, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of a competent and faithful hostler.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

THE LUXURY AND PROFIT OF HONEY RAISING

Dorsey's Bee Hive.

THE subscriber, having purchased the right of manufacturing and selling *Dorsey's Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premium wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It reports all the requisitions for the profitable maintenance of the apiary, by providing for fertilization at all seasons of the year—room for the exercise and swelling of the bees—the collection of the removal of excrement, for the prosperous ventilation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees with the new hives.

DR. HOBENSACK'S Worm Syrup and Liver Pills,

PROBABLY one reason why Worm Medicines so frequently fail of any good effect, is the fact that they contain no qualities except as Worm, Killers; consequently in obstinate instances where you mistake the symptoms of disease and doctor for worms, when in case of disease is not worms, but a *derangement of the system and* consequently *Worms* are developed, *Worms* no good result can be expected, which will *Dr. Hobensack's* Worm Syrup and Liver Pills, by *destroying and expelling* all *morbid matter*, as well as worms, after the patient can ordinarily get well, though the worms are dead at away.

Thus it will be readily seen that it possesses many *extraordinary* over other worm medicines, as it not only aids to expel and bring away the worms, but builds up and restores the patient to general health and vigor.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall st.

A Perfect Security against all manner of Printed or Counterfeiting on Paper—To Prevent Photographic and Autotypic Counterfeits, Erasures, Typewriters or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America invented and patented in England by HENRY GUNNY, celebrated chemist and assignee in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Ingham of the New York Clearing House, and Meade, Brothers extensive and skilful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per M.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—4 cts. per lb
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moisture. 50 cts. per lb.

For Indentures and Agreements, 40 cts. per lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the bills and other chemicals inserted in this paper, makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

American & Foreign Patents

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837.)

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal opinions rendered in all matters appertaining the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

Their Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The Testimonials below given prove that none are MORE SUCCESSFUL AT THE PATENT OFFICE than the subscribers; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of foreign and scientific works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and in every way calculated to give their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE.

Late Commissioner of Patents.

Boston, February 8, 1858.

Mr. R. H. EDDY has made for me THIRTEEN applications for all of which patents have been granted, and that in some instances in remarkably quick time, and that in some instances in remarkably quick time, of great celerity and ability on his part, and due to his diligence, I am indebted to him for the principle their patent, as they may be sure of having the most faithful attention bestowed on the cases, and very reasonable charges. JOHN TAGGERT.

From Sept. 17, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made 60 Patent rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

H. H. EDDY.

Many persons suffer severely by sore or weak eyes. The reflection of the sun on the snow almost blinds them—their eyes water when they are exposed to a slight wind, or have to travel or ride in the open air, a strong light blinds them, they suffer a smarting, burning sensation, as if dust was thrown in the eye, they are unable to read or write, by gas or lamp light. All these troubles can totally be remedied by the use of

THE BOSTON JOURNAL

FOR 1859.

"The Favorite Paper of New England."

Published Daily, Semi-Weekly and Weekly.

Payment invariably in advance.

In announcing the terms for THE JOURNAL for 1859, the proprietor deems it unnecessary to make any special promises for the future. He deems it sufficient to say, that

THE BOSTON JOURNAL

has been in the past it will be in the *future*, the almost unanimous choice of the conterminous heads of families in New England, as the paper which brings to New England Press in all its departments the fullest reports of all matters of interest at the earliest moment. It has relied upon its own merits, and not upon the representations of canvassers or other means, to gain for it the extensive and unbounded patronage of the Public—and the result has been that *it has now a circulation more than three times as large as that of any paper of the same class in New England*—and it is constantly and steadily increasing. The proprietor has spared no expense in all the departments of the establishment, and by the most liberal outlay of money in procuring of important news from all quarters, to make THE JOURNAL still more worthy the name of *the favorite paper of New England*. And with this simple announcement he invites the attention of newspaper readers and newspaper dealers throughout New England to the following statement of the terms for the several editions of THE JOURNAL:

BOSTON DAILY JOURNAL,

Morning and Evening,

Contains the latest news received by the morning and telegraph up to the hour of going to press. It is printed on one of *Hoe's Six Cylinder Press*, at the rate of FIFTEEN THOUSAND an hour, which enables us to hold back the forms until the very latest moment, and still work off the edition in season for the mail and express. It is published at the low rate of

Six Dollars a year; Single Copies two Cents.

SEMI-WEEKLY JOURNAL,

Tuesday and Friday Mornings,

Contains all the choicest matter published in DAILY JOURNAL for the three days previous, arranging it so that the reader can find it with ease. The Subscription price of the Semi-Weekly Journal is

Three Dollars a Year.

TO CLUBS.

Five copies, one year.....
Ten copies, one year.....

To business men in the country who desire a daily paper, the Semi-Weekly Journal is invaluable.

BOSTON WEEKLY JOURNAL.

Great Success of the Cash Plan!

Three years ago the proprietor of the Weekly Journal decided to reduce the price of that paper, and the success of the new plan has been gratifying beyond all precedent. The low rates for 1859 are

One copy, one year.....
Two copies, one year, to one address.....
Five copies, one year, to one address.....
Ten copies, one year, to one address.....

And one copy to the getter up of the club.

Twenty copies one year to one address, *and two copies to the getter up of the club.*

PAYMENT TO BE MADE

INVARIABLY IN ADVANCE.

At the expiration of the time for which payment has been received, the paper will in all cases be stopped.

The great success which has attended the introduction of the Club plan in the circulation of the Weekly Journal, and which has enabled us to reduce the price to the present low rate, has induced us to continue the same plan; the object being to suggest to those who are now receiving the paper for the coming year, that it is time to send to them one of the best family newspapers in *New England*, at a very low price, and one which is within the reach of every one.

The present season is a favorable one for the organization of Clubs, and subscriptions to the Journals in every town in New England to which a Club of ten or more persons, are solicited. *The paper for nothing.*

THE JOURNAL FOR ADVERTISING.

Is printed on the 4th and 5th sheet, and is folded for mailing by the steam folding machine. It is made up with the greatest care, and the circulation of *New Journals* and *Old Gazettes* of *twelve thousand copies* is annually sent there; which is a much larger circulation than any other paper in the New England States has. It is stated at the low rate of 15 cents a copy. A person sending one dollar will have one each of sixteen papers sent to each one they may desire.

TO ADVERTISERS.

As an advertising medium THE JOURNAL has no equal in New England. The most extensive and unjust system of credits, including the most objectionable features, has been entirely abolished, and a new system of prices adopted, by which the advertiser pays for the room occupied in the paper and no more. Advertisements may be left at the Counting Room, or sent by mail or otherwise with confidence that the price charged will conform exactly to the rates published, and that they will be inserted as often and in the same time as though handed in in person or as long as made in advance. No discounts or commissions have been employed to reduce the rates, and no discount from the regular advertising prices is ever allowed however large the amount advertised. These considerations, joined to the fact that its circulation is nearly

Three Times as Large

As any subscription list, Two Cent Daily Paper published in Boston, and that all advertisements appear in both the MORNING and EVENING papers, renders it a favorite medium for communicating with the public among the best, most respectable and enterprising advertisers.

The Boston Journal is for sale at all the Newspaper and Periodical Depots in Boston and all the principal cities and towns throughout New England, and in the cars on all the principal railroad leading from Boston. It is delivered regular carriers at the residences and places of business of the citizens of the larger cities, and to subscribers in the neighboring towns of Roxbury, Charlestown, Chelsea and Cambridge, with the same regularity and promptitude, and at the same manner, as it is in Boston.

Orders for either of the editions of the Journal must be accompanied by the cash in advance, and should be addressed to

CHARLES C. ROGERS,
12 State Street, Boston.

☞ Newspapers that may copy this prospectus with an editorial notice directing attention to it, will send a copy marked to that effect, and receive the Daily Journal for one year.
